DETAILED ACTION

Remarks

1. In response to communications filed on February 22, 2006, no claims have been cancelled; no claims have been amended, and no new claims have been added.

Therefore, claims 1-25 are still presently pending in the application.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-25 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 1, 8 and 21 disclose *"the user to select...from a list of business communities"*. The examiner cannot find any type of reference within the Specification to a user selecting from a **"list of business communities"** the only mention of a user selecting anything pertains to a user selecting from search results, there is no mention of a list.

Claims 2-7, 9-20 and 22-25 are rejected under 35 U.S.C. 112, first paragraph because they are dependent upon rejected independent claims 1, 8 and 21.

Claims 2, and 10 disclose *“business community button”*; *“sub-business community button”* and *“customized business community button”*. The examiner cannot find any type of reference within the Specification to “buttons”.

Claim 22 discloses “a business community selector, a sub-business community selector and a customized business community selector”. The examiner cannot find any type of reference within the Specification to “selector”, it is also unclear as to what a “selector” signifies within the claim.

5. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, 8 and 21 recite the limitation “business community identifier” and “sub-business community identifier” and then the claim proceeds to disclose search results corresponding to a “business community” and “sub-business community”, which renders the claim vague and indefinite, because it is unclear if “business community identifier” and “sub-business community identifier” are the same as “business community” and “sub-business community” or completely different? Furthermore, it is unclear whether the identifiers are actually in the data files. Corrections are required.

Claims 2-7, 9-20 and 22-25 are rejected under 35 U.S.C. 112, second paragraph because they are dependent upon rejected independent claims 1, 8 and 21.
